

## WHO ARE WE?

Transformational Living Wellness Lifestyle — TLWL, Inc. we are an exclusive support vessel, a mentorship, and educational platform for individuals coping with non-clinical mental physical challenges. We provide wellness services, a healing room space, preventative support services, and programs to those experiencing brokenness, grief, and trauma.

We are on a journey to raise awareness, to every individual, multi-racial ethnic groups, and others receiving inadequate support services, lack of representation, and the over-stigma surrounding counseling.
